MINNEAPOLIS, Minn., Feb. 2 -What promises to be the most notable wrestling match pulled off hereabouts in several years is slated for the arena of the Casino rink tonight, when Harry Ordamann, the Minneapolis heavy weight wrestler, is to engage in a finish bout with Zbyszko, the giant Galician mat artist. In two previous encounters the Minneapolis man showed himself a worthy opponent of the big foreigner. The many local admirers of Ordamann believe he will be able to hold his own with Zbyszko in a finish contest. Should the latter fail to defeat his opponent tonight it will probably spoil his

HELD THIS AFTERNOON.

REMAINS WERE LAID BESIDE THE RIVER SEINE IS PRACTICAL THOSE OF HER HUSBAND IN PINEWOOD CEMETERY.

The funeral of Mrs. J. C. Maley, whose death was briefly noted in the Daily News yesterday, was held this afternoon at 3:00 from the residence on South Beach street. The service was conducted by Rev. A. J. Wilder, rector of St. Mary's Episcopal Church, and the interment was at Pinewood cemetery.

Mrs. J. C. Maley came to Florida in 1866 with her husband and several small children, being members of party which included J. D. Mitchell and family, who afterward settled on the peninsula opposite this city.

Mr. and Mrs. Maley first settled on the site of what is now Ponce Park, but was then known as Port Orange.

Several years later they removed to Daytona and made their home at its present location on South Beach street, their house being one of not more than two or three which then comprised the settlement. Mr. Maley, who had been engaged in the iron business in the north, opened a blacksmith and wagon shop just south of

BOSTON, Feb. 2-The Board of Health are preparing to combat an epidemic of smallpox in the city. The disease has been epidemic in the western part of the state for several weeks. Five case have been discovered in the suburbs, and conditions in Worcester county are serious.

FLOOD CONDITIONS IN PARIS ARE VERY MUCH IMPROVED.

LY WITHIN ITS OLD BED TO-DAY-FELL SEVENTEEN CHES SINCE YESTERDAY.

PARIS, Feb. 2-The River Seine is practically within its old bed today, yesterday morning. An epidemic typhoid fever, caused by the contamination of the water supply now threatens the city, several cases having already been reported to the authorities. Bulletins have been issued warning all people to boil all water used for drinking. Acute suffering still exists, particularly in the suburbs, but the situation is improving rapidly.

> On the contrary, should the day be cloudy, gloomy, or stormy, so that the little animal could not see its shadow, it would mean that the winter was practically over and there would be an early spring.

Today, therefore, is fraught with grave meaning to those whose welfare depends on wind and wave, sunshine and shadow, or change of time and tide. So, if there is a ground hog living in your vicinity, it behooves you to watch him carefully, for his advent is portentious.

\$1,000, it is estimated, will defray the expenses of a meet on the Daytona Beach Course. Does Daytona want it? If the meet takes place it is assured that several big cars will compete, among them the 200 horse-power Benz, driven by Barney Oldfield. This car is said to be the fastest thing on wheels and would undoubtedly clip several seconds off Merriott's record. The The big Fiatt would likely be here too.

The convention will be in session three days, and the fixing of the exact dates is tenatively left to the lodge of the convention city.

The Elks' State Association comprises all the lodges of the State and many delegates are expected to be present. Daytona Lodge is planning on an elaborate scale for the entertainment of the delegates-in fact they are planning on having the banner meet of the Association.

SALE OF RARE BOOKS AND VALUABLE WAR RELICS

NEW YORK, Feb. 2-The sale of the library of the late Col. William

. of Norfolk, Va., endeared to the South as the "hero of Fort Fisher" attracted a large throng of collectors and dealers to the Merwin-Opayton auction rooms today. Col. Lamb built and had command of Fort Fisher, until its fall in 1865. After the war he served a number of years as mayor of Norfolk, and was one of the leading merchants of that city. His library contains a number of rare books broadsides and autographs.

Among the interesting items to be disposed of in the two days' sale is a copy of the Daily Citizen of Vicksburg, July 2, 1863 and a copy of the Vidette for August 16, 1862, a single sheet printed on both sides and pub-DRAKESBORO, Feb. 2 - Thirty-lished at Hartsville, a village north two dead, two missing and six injured of Nashville, Tenn. By the Hour, Day

is not revealed, but that such is fact must be apparent to the most

By L. C. DEMAREE.

One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove prancing pair of horses and listen ed to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power au tomobile down the broad stretch of wave-washed and surf-packed sand time. Practical work done at THE VUL- from all over the continent. but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River. Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowywinged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid and liquid ready for a cruise upon th beautiful surface. Take out your fiel glass and sweep the river from Ormondg bride to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridge-

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide-spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them . Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most

delightful settings. See the glistening leaf of the grand magnolia which nature has varnished as no artists' brush ever could; and ! the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryptogamons forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty .

Surpassing Beauty of Our Cottage

Homes. No one of Daytona's attractions, erhaps, commands more nearly universal attention and praise than does the artisic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another, so do our homes differ in outward appearance and structural beauty fror one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering, 'What next?"

It is not only the exterior of many of thsee homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes . This feature justly merits prominence as another wonder.

world.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and knaw into the meat, casting furtive, saucy glances at you meanwhile.

And summer's lingering blossoms are delayed.

In one yard roses of varigated hues predominate; another household has a penchant for the poincetta and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture .

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proflicacy and all desirable qualities would truly astonish you. Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parad and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with constantly shift-

ing scene. Everything goes, from a 2-horse power, up to a 200-horse power, and all degrees of speed from acanter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it wil charm and hold you. Come and see.

age from the most discriminating

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction. although earth and air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straightaway record has been made, and all these records it continues to hold without rivalry.

The sand of this famous speedway is composed largely of the shells of the coquina clam, which are about one-half inch long and very thin. For ages Nature has been rolling them up, washing them back into the surf and pulverizing them. Examined under the microscope each particle is round, unfit for mortar, builders say, because its smoothness prevents its holding together, yet, strange to contemplate, the very moment a wave leaves the wet, apparently soft beach, these round particles settle down into a cement almost as hard as asphalt, beyond the comprehension of one who has not seen it. Repairs are unnecessary, as twice each 24 hours it is entirely rebuilt by the tides. The beach has a width of 300 to 500 feet, and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobiling some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accomodation for all winter visitors.

Seabreeze contains a handsome Phy opera house and a Congregational Church; at Daytona Beach is a M. E. Church. An excellent high school is situated near the division line between the two towns. Both towns have enterprising business establishlishments, as is evidenced by the advertisements on the left and right.

All the attractiveness of Seabre 20 applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenominal as its sister on the north, and each year there is a substantial growth, The great sand dunes have been leveled and handsome homes have been built for both winter and all-yearroud occupancy. Flowering shrubs have been planted, which are covered with a wealth of bloom both summer and winter.

Work of rebuilding the Clarendon hotel is now in progress. This magnificent fire-proof structure, which is to contain 250 rooms, when completed will be the peer of any hotel in Florida. The site is immediately north of the clubhouse of the Florida East Coast Automobile Assocsation.

The Ocean Pier is a great attraction to fishermen and it is lined summer and winter with enthusiastic disciples of Iziak Walton, who find it nothing unusual to land fish weighing several hundred pounds.

COGRESSIVE NEW SMYRNA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by houry forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty nemes for the permanent population which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accomo-

dations to meet your requirements. Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the fam-

ous Indian River oranges. New Smyrna has no bonded inobtedness and the tax levy is low. A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendervous for the picnicker. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and neditative, under the arches or beide the ancient well.

CORONADO

Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At DeLand is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational DeLand is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. DeLand proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that DeLand is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to DeLand is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute. From DeLand automobiles go south

to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from DeLand to Orange City, five miles, and a good road from DeLand to Lake Helen, a like distance.

LAKE HELEN Surrounded by several pretty lakes

and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY

The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

SCENES IN PARIS. OVERWHELMED BY FLOOD:

"TRUST BUSTER" ELLIS AND WALKER WESTON.

One of the most serious features of the great flood in Paris is the flooding of underground Paris, consisting of ever 700 miles of sewers, besides the famous catacombs and two subterranean rivers. The sewers of Paris have been famous in literature for a long time. The picture shows a party of men in a boat inspecting the sewers. The chtacombs, inundated by the overflow of the Seine, contain the bones removed from the cemeteries of the demolished churches and the burying grounds in 1786. They were originally the quarries from which materials were obtained for constructing the edifices of the city. When the Champs Elysee quarter, one of the finest in Paris, was threatbred by the flood, thousands of men were put to work to erect a wall to keep the waters out.

The projected walk of Edward Payson Weston, the veteran pedestrian, from Los Angeles to New York in 100 days, starting from the former city Feb. 1, is attracting the attention of men and women throughout the country. Wade H. Ellis, ordered by President Taft to Chicago to assist in the beef trust involugation, is one of the governme'it's best known "trust busters." He was formerly attorney general of Ohio and is now assistant to Attorney General Wickersham,

A SUCCESS STORY. This is a short story of success about

John M. Smythe, merchant prince of Chicago. Success stores are all alike.

The bloom and hower of great pros-

The steady progress of a successful man is from beneath upward.

When Mr. Smythe died a few weeks ago he left a monument to his successful labors in the largest concern of its kind in the world.

"The Manhattans all that is claimed. Can safely be endorsed both by press and public." That's the endorsement that the dramitic editor of the Asheville, N. C., Citizen gave the Man hattan Opera Company to the dramat-Smythe was the pioneer in Chicago ic editor of the Lynchburg, Va., News. The Manhattans will be heard in Day tona for five nights and two mati-Diavolo" will be the opera which will introduce the company, and other operas to be heard will be "The Royal Prince,' "The Bohemian Girl," "Olivette," "Martha," "Pinafore," and "Maritana.' This engagement will prove to be the event of the tourist These merchants could not prosper season for the Manhattans are endorsed by the Southern press as being the best repertoire light opera company that ever toured the South. The seats go on sale four days in advance of the opening engagement,

"TEMPEST AND SUNSH NE" AT OPERA HOUSE TONIGHT.

Miss Mabel Paige, the "Idol of the south," will appear at the Opera House tonight in "Tempest and Sunshine."

"Tempest and Sunshine" is sweet simple story of domestic life in Kentucky, based upon certain inprincipal characters are shown in the play, in fact the dramatization follows the book very closely. The play is interspersed with laughable comedy scenes, which are furnished by the two negro servants. Joshua Middleton has two daughters, Julia and Fannie, who are nick-named "Tempest" and "Sunshine." "Tempest" being a selfish, pessimistical girl with an ungovernable temper, while "Sunshine" is just the opposite. Both girls are equally loved by their parents, who have tried to do all in their power for their welfare and future; they both fall in love with the same man, and "Tempest" at once starts a conspiracy, but the old will be seen in the charming character of "Sunshine." All the members of the company will be well cast.

Entertaining and Hospitality. I have no sympathy with the tired murmur of the straining women who speak of entertaining as "a duty to society." We all have duties to society, but entertaining is not one of them. There is no more obligation for a woman to entertain than there is for a man to swap horses with a neighbor. The conditions as they now exist are identical. The neighbor may desire to swap lds horse, but no man feels bound on that account to exchange his own for it against his wish. Since I have recognized the market value of my own horse and how much I am al ways expected to give "to boot,"

At the north pole time is nothing, and if one were residing at the north pole it would be unnecessary to wind one's watch. You are always at 12 o'clock and can't walk out of the hoof day meet at the pole as the meeting place of all the meridians. A man sitting with the invisible mathematical point right under him would be in all twenty-four hours at once, or a twenty-four hour watch placed on the pole could be made to point to the correct time in every part of the world. There used to be something of an approximation to this in the extreme north of Norway, where the degrees of longitude squeeze in, until recent days. Captains of Norwegian coasting schooners will tell you how inconvenient it was to change between the time of Holland at Bergen and that of Crete at the North cape while correct local time was maintained. General Norwegian time became indispensable.

A Traveler's Tale.

The passengers were beguiling the fourney with pleasant conversation. One man in particular, who had the Progressive bridge was enjoyed at look of a traveler, told of long sojourns in foreign lands and kept them all interested with his anecdotes. "Yes. gentlemen," said he, "there is nothing like travel to expand the mind. Now, I don't suppose, for instance, that many of you have ever seen a beet root putting on a waistcoat?" His fellow passengers stared in surprise, "No; we certainly have not!" "Or a lettuce donning a pair of trousers?". "No!" "Or a spring onion fixing on its tie and collar!" "No, not even that!" "Well, gentlemen," said the traveler as the train drew up at the terminus and he prepared to alight, "you may believe me or not, as you like, but several times in my travels I have seen not only a beet root or a lettuce or an onion but a whole salad dressing!"-London Mail

By NATHAN HARDY. [Copyright, 1910, by American Press Asso-

One morning about the middle of the last century a French fleet had been disabled in a storm off Sexotra and put into Aden, a British port, for repairs. Now, the British lion has al ways been used to prowling about look ing for a bone with plenty of marrow in it, and if he observes another animal going in an unexplained direction he immediately scents a feast. In other words, Englishmen have occupied every desirable vacant point on the face of the earth.

Naturally when the governor at Aden saw so formidable a fleet he wondered what was its object. He asked the French admiral, and the admiral aver red that the ships were making an or dinary cruise, but the Britisher knew very well that vessels in those days did not make ordinary cruises in fleets, and his curiosity was sharpened by the evasive reply. Believing that some move of importance politically was on foot, he gave orders that the repairs on the vessels should be dragged along as far as possible and in order to avert any suspicion as to the cause of the delay that might arise in the minds of the French officers arranged for a series of functions for their entertain-

For a couple of weeks the French and British officers fraternized while the work on the vessels was pursued with a pretense of activity, but with little accomplished. During this period the Britishers made every effort to learn the Frenchmen's secret. The French are not a secretive people, but for once the mouths of the French officers on the subject of their intentions were shut like clam shells.

And so long as men alone had the matter in hand the secret might have been kept forever. Wheedling information is a province especially belonging to women. The governor, despairing of inducing the Frenchmen to speak, asked his wife to help him. He was met by the simple reply, "Why didn't you ask me before?"

"Katle!" she called. A trim serving maid whose pink and white complexion denoted that she hailed from Ireland came into the

"Katie," said her mistress, "what are your intentions with reference to that young French sailor who is attentive to you?"

"Please, m'm, it's only sparkin'." "Do you love him better than your government?"

"Oi don't love him at all, m'm. Leastaways it's only French love betune us, and that's no love at all, at

"His excellency is anxious, Katie, to learn to what point the French fleet will sail after leaving Aden. Do you think you could find out from the sailor?"

"Oi'll thry, m'm." "Well, try, and if you succeed I'll have something handsome for you."

In a day or two the French sailor, who was a petty officer on board one of the French ships, came to see Katie. During his visits he had been used to taking an occasional kiss. This time he was refused.

"D'ye think," said Katie, "that Oi'll be givin' ye kisses and ye goin' away to Maddygascar or some other haythen place and never see me again?"

"I not go so far as zat," the Frenchman protested.

"How far ye goin', then?"

"Oh, we go west." "To France?"

"Non."

"To Ameriky?" "Non. I don't know." "Then ye'll get no kiss."

"Why you wish to know?" "Oi don't let a fella kiss me an' thin

go to the other side o' the worruld." The barter was kept up for some time, Katy's red lips being very near

those of the Frenchman. At last, hungry for the kiss, he gave up the secret. As soon as he had gone Katy sought her mistress. The governor was pres-"He towld me, m'm."

tricolor of France.

"Yis, sor; Parim." The governor opened his eyes. De Lesseps had just completed his arrangements for building the Suez canal, and when it was finished Perim island would be of great importance as commanding the southern entrance to the Red sea, a part of the waterway connecting two hemispheres. It was, of course, the intention of the French ad-

Secretly giving orders for a gunboat to immediately sail with a detachment of British soldiers under cover of the night and occupy the island, the governor invited the French officers (who were about to sail) to a farewell banquet and ball for the day but one following. The admiral was loath to delay sailing, but could not well decline, having placed himself under obliga-

miral to occupy it and hoist on it the

A Story of Gambetta. It is told of Gambetta that once. when in the heyday of his power. when he went to some agricultural department to oust a reactionary candidate in favor of one of his friends, he inquired about the agriculturists' wants. "We are sadly in need of rain," came the answer. "I'll see about it when I get to Paris," promised Gambetta. And his listeners believed in his promise. The record runs that the rain came down in torsents a day or two after and that when the reactionary candidate presented himself he was hooted at. "Let your party do as much for us as Gam-
